

Pass letter

The Honorable Governor Dan Moore
State Capitol
Raleigh, North Carolina

Dear Sir:

Let us be fair! Let us give ALL Americans an equal opportunity. Let us all work together to provide decent housing, have open housing and do everything within our power to foster respect and dignity for ALL Americans regardless of their color.

On the other hand, violence on the part of anyone should NOT be tolerated, but hollow calls for law and order from the white community while they are doing relatively nothing to change the horrible plight of the Negro American are stupid and border on the criminal. Let us, in North Carolina, enforce the laws fairly but work to educate and change the plight, particularly of the children, born into a life in which they are doomed to poverty and ignorance.

Thank you, Governor Moore, for anything and everything you are attempting to do. Let us know if we can be of help in any way.

are concerned,

Dear Mr. and Mrs. Grauer:

Thank you for your letter urging the maintenance of law and order in North Carolina during this critical time.

You may be sure that State Government will stand ready to provide the necessary assistance to local authorities, as has been done in recent days, to suppress violence. This assistance will remain available so long as the current threats to law and order continue.

With best wishes, I am

Sincerely yours,

Dan Moore
