Human Relations

Gov. Moore,

I wrote you about 1 month ago that  
plans were in the making to take over our  
college campuses. Within the next two weeks,  
6 college campuses were demanding more  
rights - more privileges - blockading the  
Administration building holding college  
presidents hostage - marching on mass  
in the president's home, etc. - Then  
Martin Luther King's death -- and our  
nation was demanded to pay homage to this  
man whom violence always followed --  
merchants were threatened - our local negro  
leaders who have done so much to keep  
peace - were threatened by long distance  
calls - others of our youth were threatened of  
danger if they did not join them - threats of  
burning their homes were issued, too - Congressmen  
were threatened of violence to themselves & families -  
if they did not push the housing bill & I must say  
our local negroes had more stones than did

Congress - yet we should be humbly proud  
that our N.C. Representatives did not succumb  
to these threats - We do have a great state -

We must realize that all of us are in as  
much danger as those threatened for we nob  
stop to ask questions - And when they really get  
down to business - they will take no time to issue  
threats - but will come like a thief in the night.  
(2 false bomb threats in our schools today) Anything  
to keep every body stirred up in the mean time &  
take our mind off the vital issues -

So I must repeat again - When this crowd  
gets started again - burning and looting may  
seem like a small thing - for whether or not  
their demands are met - they plan to use  
our college students - black power - poverty youths  
to overthrow our govt & send us our "imperialist  
attitude" - Every day now - one or two more  
Colleges & Universities are being taken possession

I -

Remember I stated in last letter that the next  
Student Assn. president <sup>of groups</sup> Ed Swartz had set up another  
last Aug - & relogged plans, sat-in now - to repre-  
sentations from most campuses - and that one of our

Uncover agents had worked as 'Bader cover' agent with the Du Bois club - for 2 yrs - and that he had given us definite proof of their plans to unite all leftist groups - and that they planned to spill blood in our streets this summer. I also wrote congressmen of these parts - No doubt they plan to do this before vacation begins.

But as usual - We are pessimist - extremist - etc. But call us what you will - We are only giving facts - Facts - Gov. Moore - and We do not blame our students or those in office in our country - But we know a <sup>former</sup> conspiracy has been working here since 1917 or 19 - and there is definite proofs that agents were here in 1902 - laying the foundation work for this group - One of the 1st - Worburg - a banker with Kuhn, Loeb & Co. in N.Y. - His partner Jacob Schiff was not long in sending \$20,000,000 to the USSR conspiring in U.S.S.R. - while Worburg instead of banking spent his time in 'monetary reformation' for U.S.

While we know where our intended collapse began - can anyone of us relieve ourselves of blame if we refuse to nod the other side of the coin that has so well been kept hidden ?? See Conspiracy - May issue of American Opinion Magazine - Page 1 - 21 - 93 - Emily W. Elmore.

*75*  
The Honorable Dan K. Moore  
Governor of North Carolina  
Raleigh, North Carolina

Dear Governor Moore:

Re: War on Poverty-Revolution (Information by writer Gary Allen)

Howard Fuller stated this week that by the end of the summer many people would not be alive. This was while relaying their 'plans' for the summer.

National Student Association met in August 1967 and outlined plans for a takeover of our campuses. In November 1967, the First National Student Powers Conference was held in Minneapolis, Minnesota, and the plans were given out to those present for the takeover of 40 campuses. Ed Swartz is president of this Association, and it is supported by federal aid. (From Article by Edith Kermit Roosevelt)

These students have been called out to combine with Civil Rights, Black Power, War on Poverty workers, etc., to stage a takeover of our country.

The War on Poverty is not War on Poverty but War on America. The plans were set up by Michael Herrington in "The Other America". Herrington is a Trotskyite Communist and he is Sargeant Shriver's top level advisor. H. Rap Brown could be called Shriver's back door adviser.

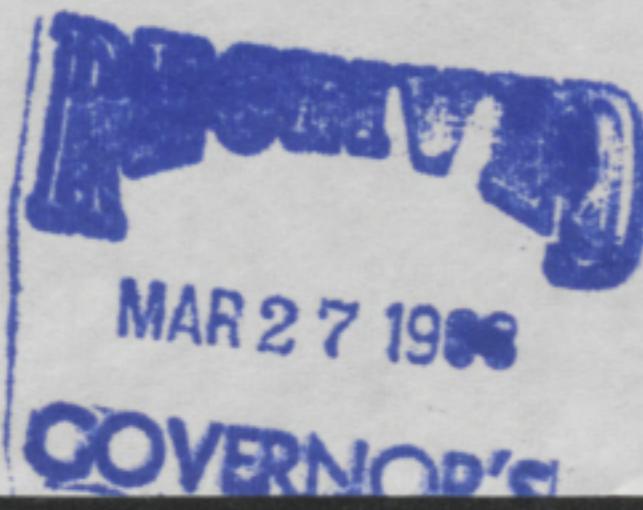

Martin Luther King and Stokeley Carmichael trained in communist training school in Mount Eagle, Tennessee (according to S. Carmichael). School was then the Highlanders Folk School. Now it is located in Knoxville as a Research Center and has been transferred to Knoxville, Tennessee. In January of this year the U.S. District Court Judge William E. Miller ruled that the State of Tennessee could not investigate this school (violation of Freedom of Speech). Report from Nashville Tenn - which was in our local newspaper

The Dubois Club which has representatives on many campuses and which is a communist front is now working with such organizations as National Student Association, Black Power, etc., to take over Campuses, train Red guards, and take over this country and spill American (white) blood on a wholesale plan.

See attached sheet to see how we are paying for this internal Revolution, that is just before erupting across the country. See April issue of American Opinion on newsstands for further information "Under Cover" article.

Sincerely yours,

E. W. Elmon

War on Poverty - Revolution in U. S.

The Multi-Million dollar effort to drag Paradise from heaven and deposit it in Urban America (But according to police of Newark and Detroit, etc. it is organization to breed riots, conduct hate campaigns, etc.)

Design by Michael Harrington, the Trotskyite Communist who wrote "The Other America" and who is top adviser to Sargent Shriver.

Design as War on America and War on Property rather than War on Poverty.

H. Rap Brown is what would be called Shriver's Back Door Adviser.

O.E.O.'s office, general staff, and paymaster - Headquarters for War on American - provides the vehicle for creating riots and agitation, inflames population, pays poverty to stay out of work and out of school.

Watts holocaust erupted after four days of shouting slogans at the crowd-- such as "You are being used!, You must organize and fight for your rights! You must demand what is yours, until the whole area was afire with hatred. Led by three Congressmen who were supposed to be on Congressional Investigation of poverty program.

One Congressman serves on House Committee of Education and Labor, also sponsor of Young Communist League. Los Angeles Police Department tells of the forming of this group by local communist.

'Police Brutality' is part of Marxist Revolutionary Action.

John Ross of the Communist Progressive Party served on anti-poverty board in San Francisco.

Howard Horowitz, former president of DuBois Club of Berkeley, California a communist front club, which now is whipping many college students to action. *also on Anti-poverty Board*

# Labor Columnist Victor Reisel claims that the poverty officers are all absolutely riddled with revolutionaries.

Roberta Alexander is typical of such, a member of the DuBois Club, daughter of two identified communists, paid with poverty funds, has travelled to North Vietnam and visited Ho chi Minh, went to Madrid, was thrown out because of communist activities.

Bobby Seale led 41 revolutionaries, Black Panther guerrillas on California State Legislature, is paid \$422.00 a month as family counselor at North Oakland Poverty Center.

Mark Comfort - one of these guerrillas - worked for O.E.O Neighborhood Youth Corps.

Wilfred Ussery, operator of Sutter Street headquarters of War on Poverty, a revolutionary black nationalist, draws \$12,000 a year fighting poverty.

Paul Jacobs, old time Trotskyite communist, University of California and Ford Foundation's notorious Center for Study of Democratic (Marxist) Institution, which is Alma Mata of New Politics, led Berkeley demonstrations, is architect of Shriver's Job Corps in California.

The Southern Conference Educational Fund, cited by both branches of Congress as primary communist front in American South. Carl and Anna Braden chief organizers in the South.

Appalachia - training recruits <sup>for</sup> Domestic Peace Corps called V.I.S.T.A. and organizing poor whites - Raid on one home produced "Communist Library out of this World". according to Commonwealth Attorney Thomas Radcliff-- paper confiscated which gave plans for takeover of Pike County from the Power Structure into hands of poor. Works by Lenin, Marx, Mao tse-tung were books seized, along with instructions on how to make and use weapons and fight guerrilla war.

Al and Margaret McSurdy, representative of Southern Conference Educational Fund were two of poverty workers in Appalachia.

Joe Malloy, field representative for Appalachia, paid by Federal government plus National Council of Churches, Marshall Field Foundation and New World Foundation.

West End Community Council of Louisville, Kentucky received \$28,000 of poverty money, has same address as Anne and Carl Braden, 4403 Virginia Avenue, Louisville, and the communist S.C.E.F. center.

This is just a sample of pages of such.

Bradens are notorious Communist in south, yet official of Community Action Commission who disperses \$3.4 millions when questioned about her participation replied " Yes I know. She is active...very active".

Hal Witt son of Communist -on Executive Board of SANE -U.P.O. Director at \$21,000 a year sponsors "peace" demonstrations. Also is in frequent contact with Communist Party and supportor of SANE. See Congressional Record of nov. 17 1968.

against the Democratic Republic of [North] Vietnam so that talks may start.' Last Sunday I expressed the position of the United States with respect to peace in Vietnam and Southeast Asia. In that statement I said: 'Now, as in the past, the United States is ready to send its representatives to any forum, at any time, to discuss the means of bringing this war to an end.' Accordingly, we will establish contact with the representatives of North Vietnam. Consultations with the Government of South Vietnam and other allies are now taking place." (The remainder of the North Vietnamese statement consisted of a vicious diatribe against the United States. The Reds used such terms as "U.S. imperialists," "war of destruction," "extremely barbarous crime of aggression," "wicked and perfidious schemes and tricks of the U.S. imperialists and their lackeys," and "U.S. neo-colonialism." They described President Johnson's partial bombing pause as "a defeat, and at the same time, a perfidious trick of the U.S. Government to appease public opinion." And they asserted that "nothing can save the U.S. aggressors from a total defeat.")

#### Tax Surcharge Passed in Senate

■ *Washington, April 2*—The Senate passes (53 to 35) the 10 per cent income tax surcharge that President Johnson has been trying to get since last August. The surcharge, which is tied to a \$6 billion cut in federal spending, is part of a broad tax-

spending package that also includes extending excise taxes on new cars and telephone bills and speeding up corporate tax collections. This measure still must be approved by the House of Representatives.

#### The Wisconsin Primary

■ *Milwaukee, April 2* — Senator Eugene McCarthy's peace campaign prevails over the ghost candidacy of

McCarthy comes out on top in Wisconsin.

President Johnson in Wisconsin's presidential primary. With nearly all of the votes counted, McCarthy has 406,098 votes or 57 per cent of the Democratic total; Johnson has 249,518, equivalent to 35 per cent; and Senator Robert Kennedy has about 6 per cent. On the Republican side, Richard Nixon has 385,052 votes or 80 per cent of the total, while Governor Ronald Reagan of California has 51,574, about 11 per cent.

#### Supreme Court on Apportionment

■ *Washington, April 1* — The Supreme Court extends (5 to 3) its so-called one-man, one-vote doctrine to the level of elected county and city governments. The decision, which could affect more than 80,000 coun-

ty, municipal, and township units in the same way that the court's 1964 apportionment ruling affected state legislatures, holds that if a governing body is elected on a district or precinct basis for a geographical area, the voting districts must be substantially equal in population. Justice Byron R. White, for the majority, says that he sees "little difference in terms of the application of the equal protection clause [in the Constitution] and of the principles of [the 1964 decision] between the exercise of state power through legislatures and its exercise by elected officials in the cities, towns, and counties." Justice John M. Harlan, who opposed the 1964 ruling, sharply dissents, commenting: "I continue to think that these adventures of the court in the realm of political science are beyond its constitutional powers."

### A Separate Negro Nation

■ *Detroit, March 30*—Delegates to a black nationalist convention draft a declaration of independence from the United States, which, among other things, calls for "blacks who go into the street, fight for freedom, and fall into American hands" to be treated as prisoners of war. At the meeting, which was sponsored by the Malcolm X Society, the delegates also draft a constitution for a separate Negro nation to be set up in Alabama, Georgia, South Carolina, Mississippi, and Louisiana. According to Milton Henry, one of the organizers of the convention, Negroes

could achieve "delegate" status only by indicating that they intended to renounce their American citizenship and become citizens of the new nation. It is to be called "The Songhay Republic" after what was described as a medieval African empire. Henry is a former Pontiac, Mich., councilman and a graduate of Yale University Law School.

### The King and His Riots

■ *Memphis, Tenn., March 28*—One Negro is killed, 62 persons are injured, and about 300 are arrested during a race riot that cuts an eight-

mile swath of damage through this Mississippi River port. Governor Buford Ellington calls up 4,000 National Guard troops and a number of highway patrolmen before the situation is finally brought under control at midnight. The violence began as young Negroes started breaking windows, looting stores, and fighting with police along the route of a protest march led by agitator Martin Luther King. King organized the demonstration to force the city to negotiate with striking garbage collectors, most of whom

are Negroes. The collectors have been on strike since early February in a demand for higher pay and union representation. As soon as the trouble started, King sprinted down a side street, leaped into a car, and sped away.

■ *Washington, March 29*—President Johnson offers federal help to states and cities that need it to control Negro rioting. Addressing the AFL-CIO's Committee on Political Education, Johnson declares: "I want to again assure you that the resources of your government stand behind local law enforcement agencies to the full extent of our constitutional authority. Mindless violence — destroying what we have worked so hard to build — will never be tolerated in America." In a statement released by the White House a few hours later, the President refers specifically to yesterday's rioting in Memphis. "The tragic events in Memphis yesterday remind us of the grave peril rioting poses," says Johnson. "This nation must seek change within the rule of law in an environment of social order. Rioting, violence, and repression can only divide our people. Everyone loses when a riot occurs."

■ *Memphis, March 29* — Martin Luther King blames yesterday's rioting on a "small group of young militants" and vows to stage another massive demonstration in this city next week. "It would be a tragic error to give up now and leave the impression that we are retreating because of what happened yesterday,"

the agitator says at a press conference. "Riots are here. Riots are part of the ugly atmosphere of our society now." King adds that he cannot guarantee that there will be no riots in Memphis next week, or in Washington next month when he leads his "poor people's march" in the nation's capital. "I can only guarantee our own demonstration will be non-violent," he comments.

■ *Washington, March 29*—Senator Robert C. Byrd (D.-W. Va.) urges the Johnson Administration to prevent Martin Luther King from carrying out his "poor people's march" here next month. Noting the damage caused in Memphis by King's agita-

Byrd labels  
King a "self-seeking  
rabblerouser."

tion, Byrd asserts that "if this self-seeking rabblerouser is allowed to go through with his plans here, Washington may well be treated to the same kind of violence, destruction, looting, and bloodshed." King "lays down the fuses," Byrd continues, then stirs his followers to flames with a "storehouse of volatile phrases such as 'bloodless war,' 'direct action program,' 'crisis-packed situation,' 'dramatic confrontation,' 'attention-getting activities,' 'pressure,' and 'civil disobedience.' Martin Luther King had no business in Memphis. He should never have gone there for

the purpose of leading the protest march — just as he never should come here for the purpose of conducting a 'poor people's' demonstration. There is no doubt that he must be held directly responsible for much of what took place in Tennessee, and he will have to bear the onus for whatever takes place in Washington if he carries through with his threatened demonstration here."

■ *Washington, March 31* — Martin Luther King says that he would call off his scheduled demonstration here only if he received from the Administration "a commitment with a timetable attached to it" that would aid King's "poor people." He adds, however, that he does not see such a commitment forthcoming. At a press conference, the agitator warns that unless Congress does more about poverty "it is going to lead to a right-wing takeover that will spell fascism. I hate to predict violence. I hate violence so much, but I have to admit that the conditions that brought violence last summer are still notoriously with us." King also announces that because of the situation in Memphis he will not be able to fly to Africa to try to end the civil war in Nigeria. He promises to send an aide in his place.

■ *Memphis, April 1*—The Reverend James Bevel meets with local leaders and announces that "we are going to escalate our pressure on this city." Bevel, a top aide to Martin Luther King, then rants that "the leadership of Memphis is mentally deranged.

We are political psychiatrists. We don't consider the mayor an opponent. We consider him a patient."

■ *Memphis, April 3*—U.S. District Court Judge Bailey Brown issues an order barring Martin Luther King from holding a massive 6,000-man

King says  
he'll ignore  
court injunction.

march in this city next week, but King announces that he will ignore the order. Claiming that the injunction is a "basic denial of First Amendment privileges," the agitator proclaims that "we are not going to be stopped by Mace [a chemical disabling gas] or injunctions or any other method that the city plans to use."

#### No U.S. Gold to Debtor Nations

■ *Washington, March 28*—The Senate votes (48 to 25) to suspend sales of gold to any nation that is more than 90 days in arrears on any debt to the United States. This amendment to the tax bill currently before the Senate was sponsored by Peter Dominick (R.-Colo.) and would affect a long list of nations, including France, Britain, and India. During the same debate, the Senate defeats (44 to 38) an amendment by Karl Mundt (R.-S.D.) that would have imposed an additional 20 per cent tax on all the income of any com-
